

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**SECTION 1: Identity of the substance / mixture and company / distributor**

### 1.1. Substance / Mixture identity

Name of the product COMPRESSOR OIL SP 68 22172

**Item number**

## 1.2. Relevant identified uses of the substance or mixture and uses advised against Identified uses

Compressor oil for air and cooling systems

**Uses not recommended** This product can be used without the recommendation of the supplier in advance.

It should not be used outside of applications.

### 1.3. Information of the safety data sheet supplier

Supplier PETROL OFİSİ A.Ş.

Ünalan Mahallesi, Libadiye Caddesi No: 82F Kat: 2-3-4, 34700 Üsküdar / İstanbul Tel: +90 850 339 1919  
Fax: +90 216 275 3854  
minicciye@petrolefci.com.tr

Customer Service: [minsivac@petrolefici.com.tr](mailto:minsivac@petrolefici.com.tr)

**Producer** PETROL OFİSİ A.Ş.  
Ünalan Mahallesi, Libadiye Caddesi No: 82F Kat: 2-3-4, 34700 Üsküdar / İstanbul Tel: +90 850 339  
1919  
Fax: +90 216 275 3854  
miningiyag@petrolofisi.com.tr

#### 1.4. Emergency phone number

**Emergency phone number** Mineral Oil Customer Service: 0850 339 1919 (office hours)

National Poison Information Center (UZEM): 114 Emergency Health Services: 112

## SECTION 2: Hazards identification

### 3.1 Classification of the

Classification TC 28848

Physical damages Not classified as harmful

**Health hazards** Not classified as harmful

## 2.2. Easier elements

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**Precautionary statements** P401 Store in accordance with international regulations.

**Additional precautionary statements** P270 Do not eat, drink or smoke when using this product. P280 Wear protective gloves / protective clothing / eye protection / face protection. P262 Do not get in eyes, on skin, or on clothing.

P264 Wash contaminated skin thoroughly after handling.

P501 Dispose of contents / container in accordance with international regulations.

**2.3. Other damages**

**SECTION 3: Composition / information on ingredients**

**3.2. Mixtures**

<b>Petroleum distillates</b>	<1%

Irrit. 2- H315	
Skin Sensitive. 1B- H317	
Aquatic Chronic 2- H411	

The full text of the hazard statements is given in Section 16.

**Reviews on the composition** DMSO contents of some substances are classified by the manufacturer as <3% according to IP 346.

**Content notes** See Section 8 for occupational exposure limits.

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**SECTION 4: First aid measures**

**4.1. Description of first aid measures General**

information	Personal protective equipment should be used to minimize first aid.
Breathing	Move affected person to fresh air immediately. When breathing difficulties occur, oxygen can be given to the casualty by appropriately trained personnel. If in doubt, seek medical advice immediately.
Swallowing	Rinse mouth thoroughly with water. Stop vomiting if the victim feels unwell, as vomiting can be dangerous. Never give anything by mouth to an unconscious person. If in doubt, seek medical advice immediately.
Skin contact	Take off immediately all contaminated clothing and wash before reuse. Wash skin thoroughly with soap and water or use an approved skin cleanser. If irritation persists after washing, seek medical attention.
Eye contact	Flush eyes immediately with plenty of water for at least 15 minutes. Open and close the eyelids occasionally during the washing process. Remove contact lenses, if present and easy to do. Rinse constantly. If symptoms are severe or persistent after washing, seek medical attention.
<b>First aid workers</b> preservation	First aid personnel should wear appropriate protective equipment during rescue. Performing mouth-to-mouth respiration can be dangerous for first aid personnel.

**4.2. Most important symptoms and effects, both acute and delayed General**

information	See Section 11 for additional information on health hazards.
Breathing	There are no specific symptoms known.
Swallowing	There are no specific symptoms known.
Skin contact	May cause skin sensitization and allergic reactions in sensitive individuals.
Eye contact	There are no specific symptoms known.

**4.3. Indication of any medical attention and special treatment needed Information to be**

given to the doctor	No specific treatment is recommended. Treat according to symptoms.
Special treatments	Treat symptomatically.

**SECTION 5: Firefighting measures**

**5.1. Fire extinguishers**

<b>Suitable extinguishing agents</b>	Water spray, foam, dry powder or carbon dioxide.
--------------------------------------	--

<b>Unsuitable extinguisher</b> substances	Do not use water jet to extinguish the fire, in case it spreads the fire.
--	---

**5.2. Special hazards arising from the substance or mixture Special hazards**

Not known. Cool closed containers exposed to fire with water spray.
Harmful combustion products Thermal decomposition or combustion products may contain the following substances: Carbon dioxide (CO <sub>2</sub> ). Carbon monoxide (CO). Irritating vapors and smoke as a result of incomplete combustion.

**5.3. Advice for firefighters**

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**During fire fighting preservative to be taken measures** No action should be taken without proper training or any personal hazard. Use water to cool fire-exposed containers and disperse vapors. Dispose of fire debris and contaminated fire extinguishing water in accordance with legal regulations.

**For firefighters** Positive pressure self-contained breathing apparatus and suitable protective clothing  
**special protective equipment** get dressed. Wear special protective clothing.

**SECTION 6: Accidental release measures**

**6.1. Personal precautions, protective equipment and emergency procedures**

**Personal precautions** Make sure procedures and emergency training are in place for on-site cleaning and disposal. Do not smoke, use fire, sparks or other sources of ignition near the spill. Do not touch or walk on spilled material.

**Emergency personnel for those who are not** Necessary precautions should be taken so that personnel who do not have proper training do not interfere.

**For emergency responders** NOTICE: Report spillage to local authorities, as appropriate or necessary. Wear protective clothing as shown in section 8 of this safety data sheet. Stop the source of the leak if it can be done without risk. Limit the spill to prevent further contamination of the soil, surface or underground water. Clean up the spilled material as soon as possible, following the precautions in the Exposure Controls / Personal Protection section. Use non-flammable absorbent materials or appropriate techniques such as pumping. Whenever possible or see fit, dig out the contaminated soil from the area. Place contaminated items in disposable containers and dispose of in accordance with regulations. If a heated substance is spilled,

**6.2. Environmental measures**

**Environmental measures** Apply appropriate protective measures to prevent spilled material from entering water sources, watercourses, drains, soil. The environmental authority must be notified for all significant spills.

**6.3. Methods and materials for containment and cleaning**

**Spill removal methods** Large spills: Stop leak if not at risk. Leak sources take away. Approach with the wind behind you. Prevent from entering drains, water sources, basements or confined areas. Wash the spillage in a waste water treatment plant or proceed as follows. Collect spills with non-flammable, absorbent material and store in packaging according to legal regulations. Dispose of via a licensed waste disposer. Contaminated absorbent material may present hazard similar to spilled product. For small spills: Stop leak if not at risk. Remove sources of leak from area. Absorb with inert dry material and place in a suitable waste disposal container. Dispose through a licensed waste disposal contractor.

**6.4. References to other sections**

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**References to other sections** For personal protection see section 8. See Section 1 for emergency contact information. For waste disposal, see Section 13. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards.

**SECTION 7: Handling and storage**

**7.1. Precautions for safe handling**

**Usage precautions** For personal protection see section 8. Do not swallow. Avoid contact with skin, eyes and clothing. Do not breathe gas, fumes, vapors or spray. Avoid release to the environment. Keep only in the original packaging or in an alternative packaging that has been approved to be compatible with the material, keep containers closed when not in use. Product residues left in emptied containers can be dangerous. Do not reuse empty containers. Take precautionary measures against static discharge. Do not eat, drink or smoke anything while using this product. This product should not be used under conditions of poor ventilation. Keep away from heat, sparks and open flames. The container should be kept tightly closed when not in use.

**Advice on general occupational hygiene** Persons sensitive to allergic reactions should not handle this product. Do not eat, drink or smoke anything while using this product. Eye wash units and emergency shower facilities should be available when working with this product. Remove contaminated clothing and protective equipment before entering eating areas. Protect from sunlight.

**7.2. Conditions for safe storage, including any incompatibilities**

**Storage measures** Store in accordance with national regulations. Store in a suitable, well-ventilated environment. Store away from incompatible materials specified in section 10. The container is not designed to contain pressure. Do not apply pressure to empty the container, otherwise it may rupture with explosion. Empty containers contain product residue and can be dangerous. Do not pressurize, cut, weld, solder, puncture, grind or expose these containers to heat, flame, sparks, static electricity, or other sources of ignition. Containers should be completely emptied and disposed of properly. Store in a confined area with a bund to prevent leakage into drains and / or water sources. Store in accordance with national regulations.

**Storage class** Not applicable.

**7.3. Specific end use (s)**

**Specific end use (s)** The identified uses for this product are detailed in Section 1.2. It should be used as specified in the

**Directions for use** product data sheet.

**SECTION 8: Exposure Controls / personal protection**

**8.1. Control parameters**

**Occupational exposure limits**

There is no suitable information.

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**Content notes** If this product contains a component with exposure limits, it may be necessary to measure and monitor the work environment or biological workplace to determine the effectiveness of ventilation and other control measures and / or the need for use of respiratory protective devices. Reference should be made to the European Standard EN 689 for methods for assessing inhalation exposure to chemicals and to relevant national guidance documents as methods for the detection of hazardous substances.

**Biological limit values** There is no suitable information.

**DNEL** There is no suitable information.

**DMEL** There is no suitable information.

**PNEC** There is no suitable information.

**lubricating oils (petroleum), C20-50, hydrotreated neutral oil based (CAS: 72623-87-1)**

**DNEL** TWA (fog): 5 mg / m<sup>3</sup>, STEL (fog): 10 mg / m<sup>3</sup>, TWAEV (fog): 5 mg / m<sup>3</sup>, STEV (fog): 10 mg / m<sup>3</sup>, TWA (respirable fraction): 5 mg / m<sup>3</sup>

**8.2. Exposure controls Protective**

**equipment**

**Proper engineering controls**

Consider the potential risks of this substance (see Section 2), appropriate exposure limits, work activities and other substances in the workplace when determining engineering controls and selecting personal protective equipment. If engineering controls and work practices are not sufficient to prevent exposure to harmful levels of this substance, the use of personal protective equipment specified in this section is recommended. The user must read and understand all instructions and restrictions supplied with the equipment, although protection is usually provided for a limited time or under certain conditions.

**Personal protection**

Keep away from foodstuffs, food and drink. Instantly remove contaminated and impregnated clothing. Wash hands during breaks and after work. Store protective equipment separately. Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

**Eye / Face protection**

Wear goggles against chemical splashes.

**Hand protection**

It is recommended that users with sensitive skin wear suitable protective gloves. Avoid contact with

**Other skin and body protection Health**

skin. Wear apron or protective clothing in case of contact.

**measures**

Persons sensitive to allergic reactions should not handle this product. Wash hands and any contaminated areas of the body with soap and water before leaving the work area. There are no specific hygiene procedures recommended, but personal hygiene practices should be followed when working with chemical products.

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

<b>Respiratory system preservation</b>	If the risk assessment shows the possibility of inhalation of air pollution, respiratory protection compliant with an approved standard should be used.
<b>Thermal damages</b>	If there is danger of contact with hot product, all protective equipment suitable for use with high temperatures should be used.
<b>Environmental exposure controls</b>	Store in a confined area with a bund to prevent leakage into drains and / or water sources. Containers should be kept tightly sealed when not in use. Residues and empty containers should be treated as hazardous waste in accordance with local and national provisions.

**SECTION 9: Physical and Chemical Properties**

**9.1. Information on basic physical and chemical properties Appearance**

Clear liquid.

<b>Color</b>	Yellowish.
<b>Smell</b>	Odorless or very light like petroleum oil
<b>Odor threshold</b>	There is no suitable information.
<b>pH</b>	Not applicable.

**Melting point / freezing point** Not applicable.

**Initial boiling point and boiling range** There is no suitable information.

**boiling range**

**Flash point** 252 ° C Cleveland open cup. There is no

**Evaporation rate** suitable information.

**Evaporation factor** There is no suitable information.

**Flammability (solid, gas)** There is no suitable information.

**Upper / Lower flammability or explosive limits** There is no suitable information.

**Other flammability** There is no suitable information.

**Vapor pressure** There is no suitable information.

**Vapor density** There is no suitable information.

**Relative density** There is no suitable information.

**Volumetric density** There is no suitable information.

**Resolution (s)** It is insoluble in water.

**Partition coefficient** There is no suitable information.

**Self ignition temperature** There is no suitable information.

**Decomposition temperature** There is no suitable information.

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**Viscosity** 61.2-74.8 cSt @ 40 ° C No

**Explosive properties** information available.

**Explosive under the influence of flame** No data available.

**Oxidizing properties** No data available.

**Descriptions** The information given can be applied to the product as presented.

**9.2. Other informations**

**Other informations** Required information is not available.

**Refractive index** There is no suitable information.

**Particle size** There is no suitable information.

**Molecular weight** There is no suitable information.

**Volatility** There is no suitable information.

**Saturation concentration** There is no suitable information.

**Critical temperature** There is no suitable information.

**Volatile organic compound** There is no suitable information.

**SECTION 10: Stability and reactivity**

**10.1. Reaction**

**Reaction** There is no specific test data on the available reactivity of this product or its ingredients.

**10.2. Chemical stability**

**Stability** The product is stable under the recommended handling and storage conditions.

**10.3. Possibility of hazardous reactions**

**Possibility of hazardous reactions** Hazardous reaction will not occur under normal conditions of storage and use.

**10.4. Conditions to avoid** Conditions to avoid High temperature, sparks and open

flames.

**10.5. Incompatible materials** Materials to avoid Strong reducing agents. Strong oxidizers.

**10.6. Hazardous decomposition products**

**Hazardous decomposition products** Decomposition products may contain: Carbon dioxide (CO<sub>2</sub>). Carbon monoxide (CO).

**SECTION 11: Toxicological information**

**11.1. Information on toxicological effects** Toxic

**effects** The information given is based on the data of the components and similar products.

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**Other health effects** There is no suitable information.

**Acute toxicity - oral Summary**

Based on available data, it does not meet the classification criteria.

**Notes (oral LD<sub>50</sub>)**

Mineral oil: LD<sub>50</sub>> 5000 mg / kg, Oral, Rat Aryl amine: LD<sub>50</sub> 1625 mg / kg, Oral, Rat Aryl triazole alkyl amine: LD<sub>50</sub> 636 mg / kg, Oral, Rat lubricating oils (petroleum), C20-50, with hydrogen treated neutral oil-based: LD<sub>50</sub>> 5000 mg / kg, Oral, Rat

**Acute toxicity - dermal Summary**

Based on available data, it does not meet the classification criteria.

**Notes (dermal LD<sub>50</sub>)**

Mineral oil: LD<sub>50</sub>> 5000 mg / kg, Dermal, Rabbit Aryl amine: LD<sub>50</sub>> 2000 mg / kg, Dermal, Rabbit Aryl triazole alkyl amine: LD<sub>50</sub> 1190 mg / kg, Dermal, Rabbit lubricating oils (petroleum), C20-50, hydrogen treated neutral oil-based: LD<sub>50</sub>> 2000 mg / kg, Dermal, Rabbit

**Acute toxicity - inhalation**

**Summary**

Based on available data, it does not meet the classification criteria.

**Notes (inhalation LC<sub>50</sub>)**

Mineral oil: LC50> 5000 mg / m<sup>3</sup>, Inhalation, Rat lubricating oils (petroleum), C20-50, hydrogenated neutral oil-based: LC50 5.2 mg / l, Inhalation, Rat

**Skin corrosion / irritation**

**Summary**

Based on available data, it does not meet the classification criteria. Based on

**Skin corrosion / irritation**

available data, the classification criteria are not met. Based on available data, the

**Animal data**

classification criteria are not met. Based on available data, the classification

**Human skin model test Extreme**

criteria are not met. Based on available data, the classification criteria are not

**pH**

met.

**Serious eye damage / irritation**

**Summary**

Based on available data, it does not meet the classification criteria. Based on

**Serious eye damage / irritation**

available data, the classification criteria are not met.

**Respiratory sensitization**

**Summary**

Based on available data, it does not meet the classification criteria. Based on available

**Respiratory tract sensitization**

data, the classification criteria are not met.

**Skin sensitization**

**Summary**

Based on available data, the classification criteria are not met. Based on

**Skin sensitization**

available data, the classification criteria are not met.

**Germ cell mutagenicity**

**Summary**

Based on available data, the classification criteria are not met. Based on

**Genotoxicity - in vitro**

available data, the classification criteria are not met.

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

---

**Genotoxicity - in vivo** Based on available data, the classification criteria are not met.

**Carcinogenicity**

**Summary** Based on available data, the classification criteria are not met. Based on

**Carcinogenicity** available data, the classification criteria are not met. There are no known

**Target for carcinogenicity  
organs** specific target organs.

**IARC carcinogenicity** Not listed.

**NTP carcinogenicity** Not listed.

**Reproductive toxicity**

**Summary** There is no test data showing that this product is toxic to the reproductive system.

**Reproductive system toxicity  
fertility** Based on available data, the classification criteria are not met.

**Reproductive system toxicity  
developmental** Based on available data, the classification criteria are not met.

**Specific target organ toxicity - single exposure Summary**

Based on available data, it does not meet the classification criteria.

**BHOT- single exposure** Based on available data, the classification criteria are not met.

**Target organs** There are no known specific target organs.

**Specific target organ toxicity - repeated exposure Summary**

Based on available data, it does not meet the classification criteria.

**BHOT- repeated exposure** Based on available data, the classification criteria are not met.

**Target organs** There are no known specific target organs.

**Aspiration hazard**

**Summary** Based on available data, it does not meet the classification criteria.

**Aspiration hazard** Due to its chemical nature, it is not expected to present any aspiration hazard. The product contains a component with aspiration toxicity.

**Toxicokinetics** Required information is not available.

**General information** The information given is based on the data of the components and similar products. No

**Breathing** data available.

**Swallowing** No data available.

**Contact with skin** No data available.

**Eye contact** No data available.

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**Acute and chronic health hazards Contact** There is not enough data.

**routes** There is no suitable information.

**Target organs** There are no known specific target organs. There is not

**Medical symptoms** enough information.

**Medical opinions** There is not enough information.

**SECTION 12: Ecological information**

**Ecotoxicity** The product contains a substance that is toxic to aquatic organisms and can cause long-term adverse effects in the aquatic environment.

**12.1. Toxicity**

**Toxicity** Based on available data, the classification criteria are not met.

**Acute aquatic toxicity**

**Summary** Based on available data, the classification criteria are not met.

**Acute toxicity - fish** Aryl amine:

LC<sub>50</sub>, 96 hours: 0,44 mg / l, Fish Aryl

triazole alkyl amine:

LC<sub>50</sub>, 96 hours: 1,3 ppm, Fish

**Acute toxicity - aquatic invertebrates** Aryl amine:

EC<sub>50</sub>, 48 hours: 0.3 mg / l, daphnia

**Acute toxicity - aquatic plants** Aryl amine:

EC<sub>50</sub>, 72 hours:> 0.25 mg / l, Algae

**Acute toxicity microorganisms** Required information is not available.

**Acute toxicity - terrestrial organisms** Required information is not available.

**Chronic aquatic toxicity**

**Summary** Based on available information, the classification criteria are not met. Required

**Chronic toxicity- in fish early life stage** information is not available.

**Short term toxicity - embryo and early larval stages** Required information is not available.

**Chronic toxicity- aquatic invertebrates** Required information is not available.

**Toxicity to soil** Required information is not available.

**Toxicity to terrestrial plants** Required information is not available.

**12.2. Persistence and degradability**

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

<b>Persistence and degradability</b>	Based on available data, the classification criteria are not met. Based on
<b>Phototransformation</b>	available data, the classification criteria are not met. Based on available data,
<b>Stability (hydrolysis)</b>	the classification criteria are not met. Based on available data, the
<b>Biodegradation</b>	classification criteria are not met. Based on available data, the classification
<b>Biological oxygen demand</b>	criteria are not met. Based on available data, the classification criteria are not
<b>Chemical oxygen demand</b>	met.

**12.3. Bioaccumulative potential**

<b>Bioaccumulative potential</b>	Based on available data, the classification criteria are not met. There is no suitable
<b>Partition coefficient</b>	information.

**12.4. Mobility in soil**

<b>Mobility</b>	Required information is not available.
<b>Adsorption / desorption coefficient</b>	Required information is not available.
<b>Henry's law constant</b>	Required information is not available.
<b>Surface tension</b>	Required information is not available.

**12.5. Results of PBT and vPvB assessment**

<b>PBT and vPvB results of the assessment</b>	Not applicable.
---	-----------------

**12.6. Other adverse effects Other**

<b>adverse effects</b>	This product contains components that have an aquatic effect. Prevent from entering soil, rivers and sewers.
------------------------	--

**SECTION 13: Disposal considerations**

**13.1. Waste treatment methods General**

<b>information</b>	Waste generation should be minimized or avoided wherever possible. Wastes, residues, empty containers, discarded work clothes and contaminated cleaning materials should be collected in designated appropriate containers and labeled according to their contents.
--------------------	---

<b>Waste treatment methods</b>	Absorb in vermiculite, dry sand or earth and place in containers. Dispose of waste in a licensed waste disposal facility in accordance with the requirements of the local Waste Disposal Authorities.
--------------------------------	---

<b>Waste class</b>	Waste code classification should be carried out according to the European Waste Catalog (EWC).
--------------------	--

**SECTION 14: Transport information**

<b>General</b>	The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR / RID).
----------------	--

**Part I**  
**SAFETY DATA SHEET**  
**COMPRESSOR OIL SP 68**

Dated December 13, 2014 and numbered 29204, "Ministry of Environment and Urbanization Regarding Hazardous Substances and Mixtures  
It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets".

**14.1. UN number**

Not applicable.

**14.2. UN proper shipping name**

Not applicable.

**14.3. Transport hazard class (es)**

There is no required transport warning sign.

**14.4. Packing group**

Not applicable.

**14.5. Environmental damages**

**Environmentally harmful / marine pollutant**

No.

**14.6. Special precautions for user**

Not applicable.

**14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC code**

**MARPOL 73/78 Annex II and IBC** Not applicable.

**pouring by code**

transportation

**SECTION 15: Regulatory information**

**15.1. Safety, health and environmental legislation specific for the substance or mixture**

**National regulations**

It has been arranged in accordance with the provisions of the "Regulation on Safety Data Sheets Regarding Hazardous Substances and Mixtures of the Ministry of Environment and Urbanization of the Republic of Turkey" dated 13 December 2014 and numbered 29204.

Republic of Turkey Ministry of Environment and Urbanization, Regulation on Classification, Labeling and Packaging of Substances and Mixtures, dated 11 December 2013 and numbered 28848

**EU legislation**

<https://echa.europa.eu>

**Guide**

Safety Data Sheet for substances and preparations. The ingredients

**Health and environmental lists**

with a risk of harm are listed.
